User Story Testing - backend

№ ID	Aa User Story	⊙ Instance	☰ Persona	☰ Acceptance Criteria	☰ Action	☰ Expected Outcome	🔗 Evidence

UT-2	As a user, I want to give recognition to Nate, so that his efforts and achievements are acknowledged and celebrated by others.	DEV	All	Users can post a recognition card from the dashboard (business services users only), ~~or from an employee's profile (all users)~~	POST a new nomination to /nominations/new with the format:
					
					`{`
					`"recipientUser": (id for Nate),`
					`"nominatorFullUser": true,`
					`"nominationValue": string,`
					`"nominationBody": string,`
					`"nominationDate": dd-mm-yyyy,`
					`"isNominatorFullUser": true,`
					`"isNominationInstant": true,`
					`"isAward": false,`
					`"isReleased": false,`
					`"releaseDate": null,`
					`}`
						Nomination post with correct formatting will result in success 200 response from API	https://drive.google.com/fil usp=drive_link

UT-9	As a user, I want to give recognition to Nate, so that his efforts and achievements are acknowledged and celebrated by others.	PROD	All	Users can post a recognition card from the dashboard (business services users only), ~~or from an employee's profile (all users)~~	POST a new nomination to /nominations/new with the format:
					
					`{`
					`"recipientUser": (id for Nate),`
					`"nominatorFullUser": true,`
					`"nominationValue": string,`
					`"nominationBody": string,`
					`"nominationDate": dd-mm-yyyy,`
					`"isNominatorFullUser": true,`
					`"isNominationInstant": true,`
					`"isAward": false,`
					`"isReleased": false,`
					`"releaseDate": null,`
					`}`
						Nomination post with correct formatting will result in success 200 response from API	https://drive.google.com/fil usp=drive_link

UT-3	As a user, I want to give recognition to Nate, so that his	DEV	All	When posting a card from the	Logic is handled by front end	N/A	

Nº ID	User Story	Instance	Persona	Acceptance Criteria	Action	Expected Outcome	Evidence
	efforts and achievements are acknowledged and celebrated by others.			dashboard, users can select a business services employee from a drop-down list			
UT-10	As a user, I want to give recognition to Nate, so that his efforts and achievements are acknowledged and celebrated by others.	PROD	All	When posting a card from the dashboard, users can select a business services employee from a drop-down list	Logic is handled by front end	N/A	
UT-1	As a user, I want to give recognition to Nate, so that his efforts and achievements are acknowledged and celebrated by others.	DEV	All	Users are required to enter a message or description for their recognition card	POST a new nomination to /nominations/new where the value of nominationBody cannot be empty	nomination posts where nominationBody value is blank results in 400 error, with response indicating the issue	https://drive.google.com/fil usp=drive_link
UT-4	As a user, I want to give recognition to Nate, so that his efforts and achievements are acknowledged and celebrated by others.	PROD	All	A confirmation message is displayed once the card is posted successfully	Logic is not handled by backend. See UT-9 for success response	Nomination post with correct formatting will result in success 200 response from API	https://drive.google.com/fil usp=drive_link
UT-5	NEW: As a user, I want to be able to log in to use the service	DEV	All	A user will be able to supply email and password and be able to use the service for 7 days, after receiving a JWT	POST email and password to /auth/login	Receive http code 200, a JWT and selected user infromation from their document in the USer collection of the database	https://drive.google.com/fil usp=drive_link
UT-6	NEW: As a user, I want to be able to log in to use the service	PROD	All	A user will be able to supply email and password and be able to use the service for 7 days, after receiving a JWT	POST email and password to /auth/login	Receive http code 200, a JWT and selected user infromation from their document in the USer collection of the database	https://drive.google.com/fil usp=drive_link
UT-7	NEW: As admin I want to ensure people without valid logins are unable to access the platform	DEV	Katie	A user without a valid email and password will be unable to access the service	POST email and password to /auth/login	Receive http code 401 and "Invalid credentials" error message	https://drive.google.com/fil usp=drive_link

Nº ID	Aa User Story	⊙ Instance	≡ Persona	≡ Acceptance Criteria	≡ Action	≡ Expected Outcome	🔗 Evidence
UT-8	NEW: As admin I want to ensure people without valid logins are unable to access the platform	PROD	Katie	A user without a valid email and password will be unable to access the service	POST email and password to /auth/login	Receive http code 401 and "Invalid credentials" error message	https://drive.google.com/fil usp=drive_link
UT-11	NEW: As admin I want to ensure invalid nominations are prevented	DEV	Katie	Validation is applied against nominations	POST nomination object to /nominations/new	A nomination that does not match validation will result in a 400 error with response advising of the issue	https://drive.google.com/fil usp=drive_link
UT-12	NEW: As admin I want to ensure invalid nominations are prevented	PROD	Katie	Validation is applied against nominations	POST nomination object to /nominations/new	A nomination that does not match validation (in this case, empty nominationBody and malformed releaseDate) will result in a 400 error with response advising of the issue	https://drive.google.com/fil usp=drive_link
UT-13	As a business services user, I want to see recognition card posts for all employees, so that I can see the efforts my peers are making and add my support.	DEV	All	Users have a feed that displays all recognition card posts, with the most recent cards at the top of the feed	GET all nomination objects with /nominations/all	Display is handled by front end, which calls to backend for all nominations	https://drive.google.com/fil usp=drive_link
UT-15	As a business services user, I want to see recognition card posts for all employees, so that I can see the efforts my peers are making and add my support.	PROD	All	Users have a feed that displays all recognition card posts, with the most recent cards at the top of the feed	GET all nomination objects with /nominations/all	Display is handled by front end, which calls to backend for all nominations	https://drive.google.com/fil usp=drive_link
UT-16	As a business services user, I want to see recognition card posts for all employees, so that I can see the efforts my peers are making and add my support.	DEV	All	Users have a feed that displays all recognition card posts, with the most recent cards at the top of the feed	GET 20 nominations at a time, with pagenation, in descending nominationDate order, with /nominations/page/:integer	Display is handled by front end, which can call API for a page of documents. GET call with page number returns a list of nominations less that 20	https://drive.google.com/fil usp=drive_link
UT-17	As a business services user, I want to see recognition	PROD	All	Users have a feed that displays all	GET 20 nominations at a time, with pagenation, in descending	Display is handled by front end, which can	https://drive.google.com/fil usp=drive_link

Nº ID	Aa User Story	⊙ Instance	≡ Persona	≡ Acceptance Criteria	≡ Action	≡ Expected Outcome	🔗 Evidence
	card posts for all employees, so that I can see the efforts my peers are making and add my support.			recognition card posts, with the most recent cards at the top of the feed	nominationDate order, with /nominations/page/:integer	call API for a page of documents. GET call with page number returns a list of nominations less that 20	
UT-18	As a business services user, I want to see recognition card posts for all employees, so that I can see the efforts my peers are making and add my support.	DEV	All	Users can add a comment ~~or reaction~~ to recognition cards	Reactions are out of scope POST /comments/post/:id	Post with URL including nomination string, and body containing at minumum comment body will receive 200 response, and JSON object of comment.	https://drive.google.com/fil usp=drive_link
UT-19	As a business services user, I want to see recognition card posts for all employees, so that I can see the efforts my peers are making and add my support.	PROD	All	Users can add a comment ~~or reaction~~ to recognition cards	Reactions are out of scope POST /comments/post/:id	Post with URL including nomination string, and body containing at minumum comment body will receive 200 response, and JSON object of comment.	https://drive.google.com/fil usp=drive_link
UT-20	As Nate, I want to receive notifications when I am recognised or tagged in a card post, so that I can stay updated on feedback and feel appreciated/engaged.	DEV	Nate	~~Users can receive real-time notifications for any recognition or comment tags~~	Feature not implemented		
UT-21	As Nate, I want to receive notifications when I am recognised or tagged in a card post, so that I can stay updated on feedback and feel appreciated/engaged.	PROD	Nate	~~Users can receive real-time notifications for any recognition or comment tags~~	Feature not implemented		
UT-22	As Nate, I want to receive notifications when I am recognised or tagged in a card post, so that I can stay updated on feedback and feel appreciated/engaged.	DEV	Nate	~~Notification settings can be configured by individual users (e.g. in-app vs email)~~	Feature not implemented		
UT-23	As Nate, I want to receive notifications when I am recognised or tagged in a card post, so that I can stay updated on	PROD	Nate	~~Notification settings can be configured by individual users (e.g. in-app vs email)~~	Feature not implemented		

№ ID	User Story	Instance	Persona	Acceptance Criteria	Action	Expected Outcome	Evidence
	~~feedback and feel appreciated/engaged.~~						
UT-24	As Ed, I want to have a filtered feed of the recognition cards for my direct reports, so that I can easily track the efforts of my team, add my support as a comment, and factor this feedback into performance discussions.	DEV	Ed	~~Manager users can toggle their dashboard feed view to just show the cards for their direct reports~~	Feature not implemented		
UT-26	As Ed, I want to have a filtered feed of the recognition cards for my direct reports, so that I can easily track the efforts of my team, add my support as a comment, and factor this feedback into performance discussions.	PROD	Ed	~~Manager users can toggle their dashboard feed view to just show the cards for their direct reports~~	Feature not implemented		
UT-78	As Katie, I want to be able to manage the access of application users and their user role, to ensure that all team members have the appropriate access to the application.	PROD	Katie	Admin users can add or remove users	POST /users/new	Obtained on UT-77	https://drive.google.com/fil usp=drive_link
UT-79	As Katie, I want to be able to manage the access of application users and their user role, to ensure that all team members have the appropriate access to the application.	PROD	Katie	Admin users can add or remove users	DELETE /users/delete/admin/:id	HTTP Status 200 and document object returned in response.	https://drive.google.com/fil usp=drive_link
UT-30	As Katie, I want to be able to manage the access of application users and their user role, to ensure that all team members have the appropriate access to the application.	PROD	Katie	Admin users can specify the user role of each user	PATCH /users/update/admin/:id	Original values should be updated with new values, in patch request. Old: userPhotoKey: "fsafsd" isAdmin: false	https://drive.google.com/fil usp=drive_link
UT-32	As Katie, I want to be able to manage the access of application users and their user role, to ensure that all team members have the appropriate access to the application.	PROD	Katie	Admin users can specify a manager-employee relationship	PATCH /users/update/admin/:id	PATCH required with body containing new LineManagerId should replace existing line manager ID with new ID	https://drive.google.com/fil usp=drive_link

Nº ID	Aa User Story	⊙ Instance	≡ Persona	≡ Acceptance Criteria	≡ Action	≡ Expected Outcome	⊘ Evidence
UT-33	As Katie, I want to be able to delete recognition cards or comments on card posts, to ensure any content that is inappropriate in a workplace setting does not remain.	PROD	Katie	Admin users can delete recognition card posts or comments on these posts	DELETE /nominations/delete/:id	Admin user should be able to delete the nomination on the endpoint specified in Action. A 200 HTTP status message should be returned, along with the document object, as it is removed from the collection.	https://drive.google.com/fil usp=drive_link
UT-34	As Katie, I want to be able to delete recognition cards or comments on card posts, to ensure any content that is inappropriate in a workplace setting does not remain.	PROD	Katie	Admin users can delete recognition card posts or comments on these posts	DELETE /comments/delete/:id	Admin user should be able to delete the nomination on the endpoint specified in Action. A 200 HTTP status message should be returned, along with the document object, as it is removed from the collection.	https://drive.google.com/fil usp=sharing
UT-36	As Katie, I want to be able to delete recognition cards or comments on card posts, to ensure any content that is inappropriate in a workplace setting does not remain.	DEV	Katie	A confirmation message is displayed when this occurs	Logic is handled by front end. Success status code is returned by API after deleting		
UT-37	As Katie, I want to be able to delete recognition cards or comments on card posts, to ensure any content that is inappropriate in a workplace setting does not remain.	PROD	Katie	A confirmation message is displayed when this occurs	Logic is handled by front end. Success status code is returned by API after deleting		
UT-38	As Katie, I want to be able to delete recognition cards or comments on card posts, to ensure any content that is inappropriate in a workplace setting does not remain.	DEV	Katie	An employee user can delete their own ~~card posts or~~ comments ~~too~~, but not those posted by other users	Deleting nominations and comments was not in scope for end users, however admins can delete		
UT-39	As Katie, I want to be able to delete	PROD	Katie	An employee user can	Deleting nominations and comments was not in		

Nº ID	Aa User Story	⊙ Instance	≡ Persona	≡ Acceptance Criteria	≡ Action	≡ Expected Outcome	🔗 Evidence
	recognition cards or comments on card posts, to ensure any content that is inappropriate in a workplace setting does not remain.			delete their own ~~card posts or~~ comments ~~too~~, but not those posted by other users	scope for end users, however admins can delete		
UT-40	As Katie, Ed or Hannah, I want recognition cards to be linked to at least one team/company value so that we reinforce their importance within our organisation.	DEV	Katie, Ed, Hannah	~~Admin users can configure the team/company values for the organisation~~	Feature not implemented, out of scope		
UT-41	As Katie, Ed or Hannah, I want recognition cards to be linked to at least one team/company value so that we reinforce their importance within our organisation.	PROD	Katie, Ed, Hannah	~~Admin users can configure the team/company values for the organisation~~	Feature not implemented, out of scope		
UT-42	As Katie, Ed or Hannah, I want recognition cards to be linked to at least one team/company value so that we reinforce their importance within our organisation.	DEV	Katie, Ed, Hannah	When making a recognition card post, employees can select one ~~or more~~ value to attach to their card	Multiple values feature not implemented, out of scope. One value is assigned at POST /nominations/new	Value ID is saved within the nomination	Demonstrated in UT-2
UT-43	As Katie, Ed or Hannah, I want recognition cards to be linked to at least one team/company value so that we reinforce their importance within our organisation.	PROD	Katie, Ed, Hannah	When making a recognition card post, employees can select one ~~or more~~ value to attach to their card	Multiple values feature not implemented, out of scope. One value is assigned at POST /nominations/new	Value ID is saved within the nomination	Demonstrated in UT-9
UT-44	As Katie, Ed or Hannah, I want recognition cards to be linked to at least one team/company value so that we reinforce their importance within our organisation.	DEV	Katie, Ed, Hannah	The value will be associated with a colour and/or icon, which is displayed on the card	Logic handled by front end. Collection created to associate images with values		
UT-46	As Katie, Ed or Hannah, I want recognition cards to be linked to at least one team/company value so that we reinforce their importance within our organisation.	PROD	Katie, Ed, Hannah	The value will be associated with a colour and/or icon, which is displayed on the card	Logic handled by front end. Collection created to associate images with values		

№ ID	User Story	Instance	Persona	Acceptance Criteria	Action	Expected Outcome	Evidence
UT-45	As Katie or Hannah, I want to access reports on the utilisation of the application, to understand if it is providing value to our team and which teams/employees are receiving the most recognition.	DEV	Katie	~~Admin users can access a reports section, A utilisation report would show the number of recognition card posts for a date range, compared to total users, Reports could be filtered and sorted by date, team, manager, value, employee, etc.~~	Feature not implemented, out of scope		
UT-47	As Katie or Hannah, I want to access reports on the utilisation of the application, to understand if it is providing value to our team and which teams/employees are receiving the most recognition.
